MAKE THE POPULAR LOAN POPULAR.

With the record for economy and business administration of the present city government the issue of a home loan of \$50,000 should be subscribed for on next Thursday before the sun goes down. There should be no hesitation whatever on the part of those holding idle money to subscribe for those bonds. The only question should be, is the subscriber a bona fide resident whose interests are identified with this community to a sufficient extent so that no matter who is mayor or council, these creditors of the city will be personally interested in a good city administration.

To the disgrace of this city and school district it is paying six, seven, eight and even a higher rate of interest on its debts, and the time has come when, under the gold standard and an era of cheap money, our debts must be refunded at not over four per cent and thus alone can taxes be reduced.

These home bonds should be distributed as widely as possible at par value among our own people. The mayor and recorder should see to it that no large blocks are gobbled up by representatives of non-resident bond buyers. There are enemies of this community who will seek to make a home loan a failure or else will seek to force the sale of these securities into the hands of moneyed syndicates who have no interest in an economical city government. The present city administration will not, we believe, knowingly play into the hands of any special class, but will sacredly guard the public interest, and give all citizens an equal opportunity to invest.

THE ONLY ARISTOCRACY.

If the State Fair Board will quit scattering free passes right and left among the salary-drawing official classes and the political aristocracy, and give only the returned volunteers a free pass to

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His nose and body were a mass of sores, and his eyesight also became affected. No treatment was of any avail until we thought of giving him S. S. S. He got better, and his nose and body were cured. He is now a healthy boy, and his eyesight is perfect. I had almost despaired of his ever being cured, when by the advice of a friend we gave him S. S. S. (S. S. S. Specific). A decided improvement was the result, and after he had taken a dozen bottles, so one who knew of his former dreadful condition would have recognized him. All the sores on his body have healed, his skin is perfectly clear and smooth, and he has been insured in perfect health. Wm. A. & M. S. S. S. 250 Kim St., Mason, Ga.

For real blood troubles it is a waste of time to expect a cure from the doctors. Blood diseases are beyond their skill. Swift's Specific.

S. S. S. The Blood reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable, and contains no potash, mercury, or other mineral.

the State Fair it will show some agricultural horse sense.

The man who makes a sacrifice for his country, the volunteer who risked his life for the honor and glory of the nation, the woman who slaves at home to bring up her children without hope of social distinction, the man who supports himself by honest industry without burdening his neighbor—these are our only nobility and they get no free passes as a rule.

The extent is alarming to which of socialism multiplies and breeds extravagance in the public service and destroys the spirit of manly independence which spurns a pauperizing relation with the public. The State Fair board, supposed to be composed of farmers, and to speak for farmers, should set its foot on the whole shoddy custom of passing free the wealthy and the favored few at the expense of the many.

The soldier, the tailor, the producer, should be the only distinguished classes in a Democratic form of government. But alas, it is not true! There are favored classes created by law and custom, and in spite of our noble origin as a nation it is the inevitable tendency of highly organized society to destroy equality and build up a cringing, fawning, truckling spirit of caste and special privileges.

GIVE THEM A FREE TRAIN HOME.

THE JOURNAL suggestion that the second Oregon be given a free train home from 'Frisco, to be paid for out of the state military fund, meets with great favor and is the most practical proposition yet offered.

When the soldiers are discharged they cannot be kept together as companies, or as a regiment. They will not be under discipline or under marching orders. Not all of them, but probably nearly all, would be willing to come home on a free train furnished by the state.

As the state nor the legislature has never spent a dollar on the Regiment, and as there has been maintained an expensive military organization, composed almost entirely of salaried colonels, and as no state encampment will be held, it seems the least the state can do is to give the boys a free train home.

The train bearing that regiment up the state would get an ovation such as no train ever had that passed through Oregon. It would take several days to come through and the men would be feasted, lauded, eulogized and lionized and honored by an admiring people. Give the boys a free train. The officers ride free all the year around.

CURRENT EVENTS.

Chicago hotel registers are filling up with the names of prominent Democrats from all parts of the country who are gathering for the meeting tomorrow, of the national committee and the one or two important political pow-wows that are scheduled to be held on the side. Prominent among those who have already arrived or who are expected to put in an appearance before nightfall are Senator Tillman of South Carolina, Urey Woodson of Kentucky, A. W. McCune of Utah, William H. White of Washington and D. J. Campana of Michigan, all of whom are down for addresses at the silver rally to be held at the Auditorium tomorrow night. Representatives of the Missouri democracy are much in evidence. According to reports they bring with them a bona fide offer of \$50,000 to go into the national Democratic campaign fund on condition that Kansas City is selected as the place for the national convention. To win out, however, the Missouri city must successfully buck against the claims of Denver, Chicago, Omaha, Pittsburgh and one or two other cities, all of which are expected to have big delegations on

hand provided with the wherewithal to contest for the convention. Those who have arrived are exceedingly reticent as to the probable work of the committee meeting, but the opinion is generally vouchsafed that the committee will not take up matters of issues, policy, platform or candidates. Notwithstanding this the Ohio Valley Bimetallic League has sent a strong delegation which will use its utmost endeavors to have the committee place itself on record on the silver question.

The Indianapolis conference of the Epworth League, which opens tomorrow, promises to be as big a religious demonstration as the most enthusiastic had anticipated. Several thousand enthusiastic young Methodists are already on the ground and trains bearing thousands of others are on the way. Delegates are being assigned to comfortable quarters as fast as they arrive. Among the notable visitors may be mentioned Bishop C. H. Fowler, General John B. Gordon, President Rogers of Northwestern University; Bishop Thornburn, of India; Bishop McCabe, Bishop John F. Hurst, of Washington, D. C.; Bishop Fitzgerald, of Nashville; Rev. G. J. Bond, of Halifax, and John Parsons, of Chicago. Headquarters were opened today for most of the state, territorial and provincial delegations.

The state capitol building has been largely turned over by the state officials for the purpose of the convention and the house of representatives, the court rooms and chambers are being utilized as headquarters for department conferences and for correspondence rooms.

The Medal of Honor Legion, composed of officers and enlisted men who, during the civil war, were awarded Medals of Honor for special acts of bravery and devotion, are in convention at Burlington, Vt., with a good attendance of members. This is the first meeting of the order for two years, last year's convention having been cancelled because of the absence of so many members in Cuba and elsewhere. The meeting was called to order today by Congressman Amos J. Cummings of New York, and among those present were General L. G. Estes of Washington, Rev. James Hill of Philadelphia, J. Madison Rice, U. S. A., of New Jersey and Edmund Lee, U. S. A., of Atlanta, Ga.

You Can Get a Lower Berth.

With one exception the through trains of the Burlington Route are almost invariably well-filled. The exception is our St. Paul-Chicago Limited. On the limited there is usually room and to spare.

Dr. J. F. Cook, the Botanical Specialist, Succeeds Where Others Fail.

To whom it may concern:
This is to certify that Bertha P. Conner, of Mt. Angel precinct, Marion county, Oregon, has suffered from a cancerous growth in the left ear for about three years. The growth was cut out twice and burned out once by Albany Physicians, but the growth came back as bad as ever, and pained her so badly that she had to be taken from school. After three weeks' treatment by Dr. J. F. Cook, of Salem, Oregon, the Botanical Specialist, the growth entirely disappeared, and at this date, four months since treatment was begun, the growth has not reappeared, and the ear has entirely healed leaving only the scars inflicted by the Albany doctors.

I hereby certify that the above statement is absolutely true, and that Bertha P. Conner, the person mentioned in the affidavit, has resided in my family since early childhood, bearing the relationship to me of niece.
